

Center for Health Information Technology & Innovative Care Delivery **Announcement for Grant Applications**

Grant ID Number: MHCC 15-001

Issue Date: March 30, 2015

Title: Telehealth Technology Pilot

I. BACKGROUND

The Maryland Health Care Commission (MHCC) intends to competitively award up to three grants of approximately \$30,000 each where telehealth¹ technology will be used to demonstrate the impact of using telehealth technology to improve the overall health of the population being served, improve the patient experience, which goes beyond adopting the technology, and provide the best care possible while lowering costs of care.² In October 2014, the Telemedicine Task Force (task force), convened by MHCC and the Maryland Health Quality and Cost Council, submitted a report to the Governor and General Assembly with recommendations to expand the use of telehealth to improve health status and care delivery throughout the State.³ The Task Force was comprised of public and private stakeholders and consisted of three advisory groups that addressed clinical issues, financial and business models, and technology solutions for telehealth.

The report identified 10 use cases as potential pilot projects that could be implemented in Maryland. The use cases cover a broad spectrum of care; MHCC believes that the experience gained from implementing pilot projects will inform the design of large telehealth programs in the State. In October 2014, MHCC awarded three nine-month telehealth grants to study the impact of telehealth on improving coordination of care between general acute care hospitals and comprehensive care facilities. The use of telehealth in comprehensive care facilities is expected to reduce hospital emergency department visits and inpatient admissions and readmissions. The telehealth pilot projects are scheduled for completion in the summer of 2015.⁴

mhcc.maryland.gov/mhcc/pages/hit/hit_telemedicine/documents/TLMD_event_materials_20150225.pdf.

¹ Telehealth is the delivery of health education and services using telecommunications and related technologies in coordination with a health care practitioner. Telehealth includes the following technologies: real-time audio video conferencing; store-and-forward; remote monitoring; and mobile health.

² MHCC grant authority included in Md. Code Ann., Health-Gen. §19-109 (2014).

³ Senate Bill 776, *Telemedicine Task Force – Maryland Health Care Commission*, (Chapter 319, 2013 Regular Session). Available at: mgaleg.maryland.gov/2013RS/chapters.noln/Ch.319.sb0776E.pdf.

⁴ For more information on the telehealth pilot projects visit:

Below is a partial list of the use cases recommended by the task force and eligible for funding under this *Announcement for Grant Applications*.⁵ Applicants must select from the following list of use cases when submitting an application:

- 1. Use telehealth to manage hospital Prevention Quality Indicators;6
- 2. Incorporate telehealth in hospital innovative care delivery models through ambulatory practice shared savings programs;
- 3. Use telehealth in hospital emergency departments and during transport of critically ill patients to aid in preparation for receipt of patient;
- 4. Deploy telehealth in schools for applications including asthma management, diabetes, childhood obesity, behavioral health, and smoking cessation; and
- 5. Use telehealth for routine and high-risk pregnancies.

II. REQUIREMENTS

An applicant must identify the prime recipient of the grant award and the participating organizations that, combined, form the applicant. The application must specify the use case to be implemented and how the applicant intends to use services of the State-Designated health information exchange, the Chesapeake Regional Information System for our Patients (CRISP), including the encounter notification service and query portal. Applications that demonstrate projects aimed at underserved and/or rural areas are encouraged. The awardee will be required to submit a report to MHCC at the conclusion of the grant that assesses the findings from the pilot and describes the impact of using telehealth on the use case. The report should document the lessons learned and assess the feasibility of continuing the telehealth program after the pilot period.

A. TASKS

To be considered for a grant award, an applicant is required to:

- 1. Propose a telehealth technology use case that meets the following requirements:
 - a. Enables the early provision of appropriate treatment;
 - b. Reduces hospital emergency department visits, admissions, and readmissions;
 - c. Improves access to care;
 - d. Provides direct and indirect cost savings to patients and providers; and

⁵ A complete list of use cases is included in the Task Force final report: <u>mhcc.maryland.gov/mhcc/pages/home/workgroups/documents/tlmd/tlmd ttf rpt 102014.pdf.</u>

⁶ Hospital prevention quality indicators are a set of measures used nationally to assess quality and access to care in communities. For more information, visit: qualityindicators.ahrq.gov/modules/pqi resources.aspx.

⁷ CRISP enables clinical data to be available to appropriately authorized and authenticated health care providers anywhere in the State of Maryland. For more information on CRISP, refer to their website: crisphealth.org/.

⁸ Length not to exceed 10 content pages.

- e. Maximizes the use of telehealth, CRISP (and any other HIEs), and electronic health records (EHRs).
- 2. Secure a 2:1 financial match with a maximum of 30 percent of the match being inkind technical professional hours provided by information technology staff or consultants. Clinical care hours attributed to work on the pilot are excluded from contribution to the match.
- 3. The ability to go-live with telehealth technology implemented and clinical protocols developed for the selected use case within 30 days of award date.
- 4. Using the following table as an example, identify at least three clinical goals of the pilot that can be evaluated pre-and post-implementation of telehealth technology. The quality measures for each goal should be clear and verifiable, and tied to a project objective, with monthly milestones. The goals must:
 - a. Include measure(s), key definitions for all terms of each measure, and a baseline definition (see table below for format); and
 - b. Include a numerator and denominator, and identify how the numerator and denominator will be calculated.

Clinical Goals [Example: Reduce hospital emergency room visits, admissions, and readmissions]			
Measure EXAMPLE Percent change in [specific measure]	Key Definitions EXAMPLE Hospitalization: Hospital emergency department visits, admissions, and	Mechanism to Measure EXAMPLE Denominator: How the pilot participants plan to calculate the	
Suggested Denominator: Total number of patients [that meet the use case participation requirements] within [defined timeframe] Suggested Numerator: Number of patients [that received the intervention] Percent Change: A month performance period minus a month base line performance period from the previous year	readmissions Hospital Readmissions: ED visits, admissions, and readmissions: 1: [Qualifiers] in the current month for the same or related condition to any acute care hospital Baseline: 1. [Qualifiers] in the same month in the prior year. The prior month refers to the same month in the prior year to the start of the pilot	denominator (e.g., calculated on a daily basis through the EHR, then totaled for each quarter) Numerator: How the pilot participants plan to calculate the numerator (e.g., calculated on a daily basis through the EHR, then totaled for each quarter)	

Key tasks following an award:

- 1. Participate in a kick-off meeting with MHCC staff.
- 2. Submit a detailed project plan in a manner and format determined by MHCC.
- 3. Submit a final assessment report (not to exceed 10 pages) at the conclusion of the grant that includes:
 - a. Description of the technology infrastructure used in the pilot, including EHRs, HIE, and telehealth equipment;

- b. Lessons learned, including impact on the target population;
- c. Pilot implementation challenges, both expected and unexpected, how these challenges were addressed, and whether or not they were mitigated;
- d. Cost effectiveness of the implemented use case;
- e. Results of the assessment;
- f. Sustainability prospects;
- g. The progress made in achieving clinical goals and other metric(s) that may have been collected as part of the assessment; and
- h. Recommendations for continuation or replication of the pilot.

4. Throughout the duration of the grant award:

- a. Participate in bi-weekly update conference calls with MHCC staff;
- b. Host at least one site-visit, where MHCC staff will visit the facilities involved in the pilot project;
- c. Participate in at least one educational event, meeting, or webinar to showcase and/or demonstrate the work of the pilot project;
- d. Submit monthly reimbursement requests along with supporting documentation; and
- e. Submit bi-weekly updates on the progress of making use of telehealth technology and achieving the clinical goals in a format specified by MHCC, which will serve as an audit trail for both the grant award and matching funds.

The MHCC and the awardee must agree on all activities specific to each task prior to the awardee's performance of the work, and MHCC will determine if a task is satisfactorily complete before the task will be considered complete for payment.

B. REQUIRED QUALIFICATIONS

The applicant must have experience in telehealth and HIE deployment. The applicant must include a letter of support from each participant organization that summarizes activities planned for the pilot for each of the grant participants and commitment to complete the work within the pilot project plan timeline.

C. GRANT TASKS & DUE DATES

Grant Tasks	Due Date	
Participate in bi-weekly status conference calls with pilot partners and MHCC	Ongoing	
Submit monthly update on the progress of making use of telehealth	By 5 th business day of	
technology and achieving the clinical goals	following month	
Submit monthly reimbursement requests	By 15 th business day of each	
Submit monthly remibul sement requests	month	
Submit draft project plan	5/18/15	

Grant Tasks	Due Date			
Kick-off meeting – to discuss draft project plan	5/18/15			
Submit final project plan	5/26/15			
Use case pilot				
Submit draft clinical quality measures	6/5/15			
Begin implementing the pilot (i.e., go-live with telehealth technology and clinical protocols)	6/10/15			
Conclude implementation of the pilot	7/31/15			
Final Report - Sections due to MHCC				
Outline				
Draft	2/1/16			
Final	2/12/16			
Description of the technology infrastructure used including all EHRs, HIE, and telehealth equipment				
Draft	2/17/16			
Final	2/24/16			
Lessons learned, and pilot implementation challenges				
Draft	2/19/16			
Final	2/23/16			
Cost effectiveness and sustainability prospects				
Draft	2/25/16			
Final	3/4/16			
Results of the Final Report and recommendations for replication				
Draft	3/9/16			
Final	3/16/16			
Compiled report final draft	3/23/16			

Note: Grant tasks/due dates are tentative and subject to change at the discretion of MHCC, after discussion with the awardee, and are not listed within the table in any particular order.

D. STAFFING AND PERSONNEL REQUIREMENTS

An applicant may propose to augment or revise the following list of required personnel.

Labor Categories	Description
Project Director	A senior level individual that will coordinate all aspects of the work and take
Project Director	responsibility for meeting the schedule of tasks.
Technical Manager	A management level individual with experience in managing technology deployment that
Technical Manager	can ensure staff training and utilization of the technology among all participants.
	A licensed health care practitioner that will work on the pilot, using the telehealth
Clinical Consultant	technology, and provide consultation to the Technical Manager to increase the
	effectiveness of the use of telehealth technology and redesign clinical processes.

E. TERM OF GRANT

The grant begins on or about May 18, 2015 and will end April 1, 2016. Awardee submission of reimbursement requests is required by the 15^{th} of the month for the prior

month and must include a description of the completed tasks in accordance with the Task Schedule in Section II, as well as supporting documentation for requested funds and match contribution. The supporting documentation must be of a quality that will withstand an audit. All tasks and work performed, and all reimbursement request documentation included must be to the satisfaction of MHCC for reimbursement approval.

If it becomes necessary to revise this announcement for grant applications before the due date for applications, amendments will be announced on MHCC's website. Multiple and/or alternate applications will not be accepted. The MHCC will not be responsible for any costs incurred by an applicant in preparing and submitting an application or in performing any other activities relative to this grant notification. The MHCC reserves the right to cancel this announcement for grant applications, accept or reject any and all applications (in whole or in part) received in response to this announcement for grant applications, to waive or permit cure of minor irregularities, and to conduct discussions with all qualified or potentially qualified grant applicants in any manner necessary to serve the best interests of MHCC and accomplish the goals of this grant announcement.

Prior to an entity conducting business in the State, it must be registered with the Department of Assessments and Taxation, State Office Building, Room 803, 301 West Preston Street, Baltimore, Maryland 21201. It is strongly recommended that any potential applicant complete registration prior to the due date for receipt of applications.

F. HOW TO APPLY

An applicant submitting a grant application must follow the requirements detailed below. Grant applications are due to MHCC by 5:00 p.m. Eastern Daylight Time on **Friday, April 24, 2015**. Applications must be submitted via email to christine.karayinopulos.@maryland.gov.

All questions regarding this announcement for grant applications should be submitted via email to marya.khan@maryland.gov; all questions and responses will be posted on MHCC's website.

G. REQUIREMENTS FOR APPLICATION

An application must be prepared in a clear and precise manner and address all requested items, as described below, in 15 or fewer pages. Original and creative approaches to using telehealth are encouraged. The application MUST contain the following sections:

- 1. *Cover page*: A completed template cover page in Attachment A to this grant announcement.
- 2. *Scope of work*:
 - a. <u>Executive Summary</u>. A half-page overview of the purpose of your organization's application, summarizing the key points.
 - b. <u>Statement of the Problem</u>. Clearly state the problem that needs to be solved and the objective of the proposed telehealth initiative; please limit to one page.

c. Scope of work and strategy. This section should describe the proposed telehealth project. Address the requirements for each task and describe how the proposed services, including the services of any proposed sub-awardee(s), will meet or exceed the requirement(s). Include a concise and detailed description of the scope, breadth, and plans/approach for completing each task described in Requirements (Section IIA, above), including how the applicant plans to complete the tasks to the highest level of quality and in a timely manner.

The application should be structured using the sections detailed below, where relevant, technical architecture and clinical workflow diagrams should be used to depict the proposed telehealth pilot. Information submitted in the Appendices should be specific to support the application, and not simply technical brochures. Material in the appendices is not included in the total page count. The MHCC may request additional material, if needed for clarification, during evaluation of grant applications.

i. Project Description

- a) What will the pilot do? What is the overarching purpose of the pilot? What are the key programmatic components of the project? Quite literally, who will do what for whom, with whom, where, and when?
- b) What will be the benefits and measurements of success? If the pilot is successful, what visible, tangible, objectively verifiable results will you be able to report at the end of the pilot? What longer-term benefits do you expect for the target population and the broader community? What is the envisioned benefit of implementing telehealth technology?
- c) Clearly specify if the funds will be used to support initial technology investment(s) or expansion of existing telehealth programs.
- d) Demonstrate its ability to be able to go-live with proposed telehealth technology and clinical protocols of selected use case within 30 days of award date.
- e) How will the pilot be sustained after grant support ends? Will the pilot require ongoing outside support after the proposed grant ends? If plans are not yet firm, what process will you employ to work towards sustainability?
- f) Describe the telehealth use case to be deployed. Who are the participants? Describe the current conditions that the telehealth use case is expected to address. Explain the current relationship between the participants and the expected impact of the telehealth pilot.

ii. Work Plan

- a) What is the timeline for accomplishing specified tasks? Prepare a Gantt chart or other timeline listing project tasks and the time period over which these tasks will be undertaken. The work plan chart may be attached as an appendix item to the application.
- b) The specific methodology and techniques to be used in executing the tasks should be included in this section.
- d. *Applicant qualifications*: Describe the qualifications of the organization(s) that will be participating in the tasks under the grant, including each organization's experience in performing similar work and, if applicable, work performed specifically related to assessing, developing, and managing telehealth. The applicant must demonstrate how it meets the Qualifications Requirements (Section IIB, above); please limit to one page.
- e. Experience and qualifications of the proposed staff: Describe the experience and qualifications of the proposed staff in performing similar work and, if applicable, work performed specifically related to telehealth. The grant applicant must demonstrate how its proposed staffing model meets the staffing requirements and required personnel described under Qualifications Requirements (Section IID, above), and, if applicable, as augmented by the applicant. Other essential staff, their roles in the pilot, and their relevant qualifications should be identified; please limit to one page.
- 3. Additional documentation: An applicant must include, as an appendix (appendices are not included in the Scope of Work page count) to the application, an individual resume or detailed biography for each of the personnel who will be assigned if the applicant is awarded the grant. Sub-awardees, if any, must be identified, and a detailed description of their contributing role(s) relative to the requirements must also be included in the application. Each resume or biography must include the amount of experience the individual has completed of the type of work and tasks detailed in this grant announcement.
- 4. *Financial proposal*: The financial proposal must include the costs of equipment proposed under the grant and the fully-loaded hourly rate for the work to be performed. Include an estimate of the total number of hours required to complete each task. Submit a budget for both award funds and matching funds using Attachment B. The financial proposal attachment is not included in the Scope of Work page count.
- 5. Letters of commitment: Letters of intended commitment to work on the project from personnel from each organization must also be included as an appendix (appendices are not included in the Scope of Work page count) to the application. The letters of commitment should contain a brief description (approximately one paragraph) of the work to be performed for the pilot by that organization.

6. *Disclosure*: An applicant must disclose any substandard quality of care level deficiencies, CMS admissions ban, and note any outstanding health and safety violations.

H. TERMINATION CLAUSE

The State of Maryland may terminate this grant award at any time and for any reason. <u>An applicant must acknowledge this statement in its application for its response to be considered acceptable.</u>

MINORITY BUSINESS ENTERPRISES AND SMALL BUSINESSES ARE ENCOURAGED TO RESPOND TO THIS GRANT ANNOUNCEMENT
